

# Versa On The Move:

## Introducing Mobile Versa Castor Kits!

### Looking for mobile shelving ?

Transform your current Versa bays into dynamic mobile units with our new castor wheel add-on kits.

#### Showrooms & Retail

Enhance customer experience by relocating impulse product displays as needed. Also allows for easier cleaning underneath.

#### Trade Shows & Pop-Up Events

Easily position displays to create a captivating booth.

#### Safe & Secure

Double-sided steel display ensures stability, with a maximum weight limit of 400kg (including the Versa system).

#### Easy to Manoeuvre

100mm (3") castor wheels provide smooth rolling for effortless positioning.

#### Visually Appealing

Castors and brackets blend seamlessly with our Versa shelving system's sleek design.

#### Flexible & Functional

Available for all Versa widths (600, 914 and 1200mm) suits all depths and colours.

**Contact us today to learn more about Versa Mobile Shelving!**

**Please note:** We recommend a maximum height of 1500mm for optimal safety. End caps are sold separately and are recommended for both ends of the mobile bay.

**Before commencing install, please read the installation instructions.**
